

Technology Solutions *from pole top to desktop*

Cabco provides technology communications products, services and infrastructure to businesses across Atlantic Canada.

A trusted advisor for technology solutions *from pole top to desktop* since 1980 and locally-owned, Cabco is the oldest independent integrator in the Region with offices in Dartmouth, NS and St. John's, NL.

Why choose Cabco for your next project?

- High customer retention rate with majority of business coming from customer referrals.
- Consultative process to help you reduce costs and maximize the value of your technology investment.
- We work to your schedule to ensure on-time, on-budget project completion.
- Atlantic Canada's only SIP-certified and nationally-ranked independent telecommunications integrator.
- No need to work with multiple vendors...Cabco provides a full range of solutions for optimum convenience.

Technology Cabling

Voice, data, fibre optic and specialty cabling for renovations, moves and new construction - both indoor and outdoor. Technical Relocation of sensitive networking equipment, workstations, phone systems, and related infrastructure.

Document Solutions

Multifunction copiers, printers, imagers and touch-screen interactive displays by SHARP. Local service, supplies and support across Atlantic Canada.

Telephone

VoIP, SIP and Digital business telephone systems that integrate with your network, sites and devices (desk phones, conference sets, mobile phones, computers, tablets, etc.). Cabco is the Region's only SIP-certified, nationally ranked telecom integrator.

WiFi

Commercial-grade WiFi solutions that offer fast, scalable and secure connectivity for any device - indoor or outdoor. Connect to a network, the internet, phones, scanners, external buildings and more - all within your control to manage access and connectivity.

Video Conferencing

High definition video conferencing (cloud and room-based options) to help reduce travel costs and increase collaboration. Cabco also provides audio visual integration to help optimize meeting space investment.

Security Solutions

CCTV surveillance cameras, recording and security alarm systems. Full range of access control systems, including door swipes, card and fingerprint readers, door access, etc.

Telecommunications Services

Outside Plant Construction team offering aerial pole and infrastructure services.

Contract Installation to service providers with expertise in telephone, CATV, data, security and internet service installation.

Fibre Optic Services team specializing in network design, splicing and installation for all types of fibre optic cable systems and infrastructure.

Professional Services

From communications systems infrastructure testing and assessments, to contract project management and CabCare maintenance service plans, Cabco is your trusted advisor...*from pole top to desktop*.
