

Document Solutions by SHARP

A trusted advisor for technology solutions from pole top to desktop since 1980, Cabco will help your office run more efficiently via award-winning, innovative and high quality document systems from **SHARP**.

From multifunction printers, copiers and imagers to touch-screen AquosBoard™ interactive displays, Cabco has the right **SHARP** solutions for your unique business environment with **local service, support and supplies**.

A different approach from a *trusted advisor*

With so many options to choose from, selecting the right document system and service plan for your business can be both time consuming and frustrating.

Cabco believes in taking a *different* approach to Document Solutions.

We specialize in helping our Clients select the right system for their workflow and usage requirements, while our **cross-trained technical team** will ensure relevant cabling, telecommunications, audio visual and IT network infrastructure is optimized for efficient operation of your **SHARP** system.

The result? Smooth implementation, worry-free performance and local support you can depend on.

Contact Cabco today for the *right* document solution for your business!

Local, **SHARP**-certified technicians across Atlantic Canada
